District Health Boards are committed to the prevention, detection and investigation of cyber threats. Our protections include limiting the information about cybersecurity activities that we make public, as this could increase the chance of attacks in the future.

On behalf of the community, it is very important that we protect information about our cybersecurity strategies and methods as much as possible to ensure criminals do not use that information to hinder or bypass our security controls.

I trust this information meets your needs. If you would like any further information or clarification please phone me. If you are not satisfied with this response you may contact the Office of the Ombudsman, phone 0800 802 602.
