

# All Hawke's Bay DHB facilities currently have a **no-visitors policy**

## Exceptions:

- **End of life care** – one nominated person can support a terminal patient through end of life care.
- **Children** - one parent/guardian can support a child in hospital.
- **Maternity** - one support person can attend throughout the woman's stay (labour, birth and postnatal).

The decision about whether exceptional circumstances apply is at the Charge Nurse Manager's or another lead clinician's discretion.
